Thermostatic Temperature Controller (DC)

This controller was designed to mount on the cooler without requiring extensive wiring or plumbing. It provides accurate temperature control by cycling the cooling fan(s) to maintain desired oil temperature.

- 12 or 24 Volt operation
- Adjustable temperature settings range from 100°F thru 210°F
- For use with one or two fan models
  (Relay needed for 2 fan models – not offered by TTP)
- Temperature sensor provided
- Wiring provided for remote manual override
- Mounting hardware included
